EXPERIENCE

Initiative, an Omnicom Media Agency

Data Analytics Intern

June 2026 – August 2026

Los Angeles, CA

- Conducted exploratory analysis in Excel and Tableau to evaluate media effectiveness, identify performance drivers, and contribute insights to client-facing presentations.
- Built and maintained ETL workflows to clean, transform, and structure multi-channel marketing data for dashboards and predictive modeling.
- Developed Tableau dashboards visualizing audience performance, campaign KPIs, and optimization insights for internal teams and client stakeholders.

University of California, Riverside

Digitization Services Student Assistant

September 2025 – June 2026

Riverside, CA

- Organized and maintained structured digital datasets (files and metadata), ensuring accuracy, consistency, and adherence to operational standards to support data-driven decision-making.
- Conducted quality assurance and validation checks on digital assets and descriptive data maintaining FADGI standards, identifying discrepancies and improving overall data reliability.
- Used spreadsheets and databases to track workflows, document processes, and support cross-departmental operational efficiency and reporting.

LEADERSHIP AND SERVICE

Ascend UCR

Director of Data

April 2025 – August 2026

Riverside, CA

- Analyzed and synthesized membership and interviewee data using Excel and structured methods to identify trends, support strategic planning, and inform talent selection.
- Partnered with executive leadership to design customized dashboards that enabled clear, cross-functional performance tracking.
- Optimized code efficiency by identifying weaknesses and implementing solutions, including automation through Google AppsScript, reducing manual workload by 40% and improving accuracy.

Associated Students Programs Board

Marketing Intern

October 2024 – June 2025

Riverside, CA

- Promoted campus events through targeted, insight-driven outreach—creating audience-aligned promotional materials that reached 27,000+ students and increased event visibility and attendance.
- Collaborated in weekly department meetings to strengthen technical expertise in Adobe After Effects and Illustrator, contributing to multimedia strategy development.
- Designed and optimized marketing assets in Adobe Creative Cloud, applying audience insights and engagement data to maximize campaign impact.

American Marketing Association at UCR

Finance Intern

January 2025 – March 2025

Riverside, CA

- Developed a structured sponsor database that surfaced high-value donor segments and increased contributions by 50%, complemented by operational performance analysis that shaped the organization's annual strategic review.
